Familiar stories that make their way into the children's Bibles combined with **weird dreams and visions** that we may think are best avoided – such as the book of Daniel. In combination they give us a confidence that, in spite of appearances, God is in control. It was a message needed when the Babylonians and the Medes and Persians were seemingly in control; and it's a message we still need today.

This **Bible Study Booklet** is available as a **PDF**. We have purchased sufficient group licences to cover our church family.

If you are part of a Bible Study Group, your leader will email it to you. If you are not in a group, but would like the studies, please email or call the office. We will have a few hardcopies available for those unable to either use the electronic version or print it for themselves.

Note that the licences have been purchased for our church use only. Please respect the copyright of the authors and do not pass it on.

The PDF licence is much cheaper than buying the actual study booklets. If you are able to contribute to cost of the 'books' then a \$5 donation is appreciated. Please mark your electronic transfer, or envelope with cash, as 'Bible Studies.'

A Note About how the Sermons and Studies (Almost) Line Up

The first study is quite short and introductory. It doesn't line up with preaching plan, but would be a good 'week 0' study before the sermons get going.

Chapters 3 & 6 are combined into one study; similarly for chapters 4 & 5. The studies plan splits those studies to keep in line with the preaching plan, but groups can handle that as suits them.
